

YEARLY COURSE PLANNER, 2018-2019

August 2018

AVAILABLE AT <http://www.shc.northwestern.edu/undergraduate/courses.html>

The following is a comprehensive list of courses known to be offered at Northwestern in **2018-19** that count toward the SHC adjunct major or minor. This document will be updated during the year as information becomes available about the full range of offerings. Each quarter before pre-registration begins, a full list with days, times, locations, and descriptions will be distributed to SHC students and posted online at <http://www.shc.northwestern.edu/undergraduate/courses.html>

Please note that students are welcome to petition the SHC Director to count other classes that do not appear here. Two rules of thumb prevail: **1)** the class cannot be a science class that offers a narrow, problem-set approach, and **2)** the class must treat science, medicine, or technology in context.

CORE COURSES toward the major appear are preceded by an asterisk (*) and highlighted. For more information about requirements for the SHC adjunct major and minor, see <http://www.shc.northwestern.edu/undergraduate/major-minor.html>.

For the general course list for SHC, see <http://www.shc.northwestern.edu/undergraduate/allcourses.html>.

For information about the senior honors program in SHC, see <http://www.shc.northwestern.edu/undergraduate/honors.html>.
